CAREER OBJECTIVE

An aspiring Full-Stack Developer passionate about backend development and building real-world systems using the MERN stack. I bring hands-on technical experience from managing IT operations in a small business environment, along with strong problem solving and analytical skills developed through years of forex trading. I'm seeking junior roles where I can contribute to backend/API development, grow within a collaborative dev team, and help build scalable, meaningful software solutions

WORK EXPERIENCE

Information Technology Specialist

Dems Financial Consultancy Services

📅 Jan 2024 - current   📍 Orion, Central Luzon, Philippines

- Handled end-to-end hardware and software troubleshooting, resolving system issues and ensuring daily operational continuity. Set up and maintained company equipment including computers, printers, routers, switches, and CCTV systems. Performed routine system updates, software installations, and remote support using tools such as TeamViewer. Drove on-site to support business operations and ensure stable IT infrastructure.

IT Support Technician

Dems Financial Consultancy Services

📅 Jan 2022 - Dec 2023   📍 Orion, Central Luzon, Philippines

- Provided independent day-to-day technical support for employees, handling hardware, software, and connectivity issues across the office. Installed and configured computers, printers, routers, and switches, performed system maintenance and updates, assisted with IP addressing and basic network configuration, and delivered on-site and remote support to ensure stable daily operations.

Junior IT Support Technician

Dems Financial Consultancy Services

📅 Nov 2019 - Dec 2021   📍 Orion, Central Luzon, Philippines

- Started as an entry-level IT support technician assisting with the setup, maintenance, and basic troubleshooting of office computers, printers, and peripherals. Provided hands-on support for common hardware and software issues, assisted with basic network setup, device configuration, and user support, and worked closely with senior staff to learn real-world IT operations in a small business environment.

Foreign Exchange Trader

Self-Employed

📅 Jan 2021 - current   📍 Orion, Central Luzon, Philippines

- Conducted technical and fundamental market analysis to make informed trading decisions. Strengthened analytical and decision-making skills applicable to debugging and backend problem-solving. Managed performance under pressure and adapted strategies based on market conditions.
